Dear delegates,

Herewith, we are nominating Zuzana Pavelková for the Federation of Young European Greens Executive Committee (FYEG EC).

Zuzana has joined Mladí zelení (Czech Young Greens) more than two years ago. She has been a very active and initiative member and has proven her competences and her resilience on many occasion. She is hardworking, committed and able to motivate others. In 2016, it was crucial to have her on the team in order to make the Prague General Assembly a success.

Zuzana has significant experience of living in several European countries. She has good overview of political developments across Europe and thanks to her previous involvement, she is very well connected to the current Executive Committee of the Cooperation and Development Network Eastern Europe as well as to the Steering Committee of the Global Young Greens. In addition to that, Zuzana has significant knowledge in the area of asylum and migration which the FYEG could significantly profit from in the following year.

We believe that all the above makes Zuzana a perfectly suited for the position of FYEG EC member. She would be a strong asset for the network as a whole.

We wish Zuzana all the best for the upcoming elections and hope she will receive support of many of the FYEG MOs.
