Letter of support: Zuzana Pavelková

Vihreät nuoret (the Federation of Green Youth and Students of Finland) has decided to support Zuzana Pavelková as a candidate to the executive committee of FYEG in General Assembly, Madrid 2017.

We were very impressed with Zuzana's vast experience with volunteering and Green activism as well as the high level of motivation and dedication that shines through in her application. Additionally, the Finnish young greens who have worked with Zuzana had nothing but positive remarks about working with her, which made it very easy for us to decide to support her candidacy.

Finland has lived through several victories of right-wing populism as well as the rise of open and even violent racism. The development that is now occurring all across Europe has sadly been happening in Finland for over a decade now. Therefore we are very eager to see FYEG put even more emphasis on tackling these issues, so we are especially pleased to support a candidate that is skillful and experienced in human rights activism and antiracism.

We are warmly recommending Zuzana Pavelková for the executive committee of FYEG.

Helsinki
27th of April 2017
