

Dear FYEG General Assembly 2017 delegates,

In the name of écolo j, we would like to express our deepest support for Zuzana Pavelkova as a member of the Executive Committee of the Federation of Young European Greens. Our support is motivated by her capacities, her involvement, her enthusiasm and her motivation to carry on green the ideas of FYEG since we first met her in Tbilissi two years ago.

Zuzana has proved since then (and before) that she is a hard working person. We would like to outline all the work she has done in different prep teams (FYEG GA 2016 in Prague and GG Congress 2017). As Zuzana already mentioned in her political convictions, we would like to stress more of her personal qualities. She is always eager to learn new things, considering topics from all sides, and is really great in working with people from diverse cultural and geographical backgrounds. She also speaks different languages.(French, German, Czech..) which we believe is an asset as an EC member.

Zuzana is in favour of ambitious political positions on migration and asylum, human rights, the fight against far right and climate change. We strongly believe that her experience and knowledge on these issues not only reflect FYEG's positions, but can also be beneficial to our organisation.

As a campaigner, Zuzana also has an experience that could be useful for our organisation for the upcoming European elections. Besides her great motivating skills, she also works well-structured, can organize discussions and lead them to a result, and if most important, get things done.

Moreover, Zuzana has a special attention on inclusivity and we, écolo j, think this is her best quality.

For all these reasons, we think Zuzana is a strong candidate.

Greenly yours,

écolo j
